RESCISSION OF NONPUBLICATION REQUEST UNDER 37 CFR 1.213(b)

The above-identified application was filed with a request that it not be published, pursuant to 35 U.S.C. 122(b)(i).

Applicant hereby <u>rescineds</u> the above nonpublication 35 U.S.C. 122(b)(i) request, and requests that the above-identified application be published.

Applicant suspects that there is a possibility that an invention disclosed in the above-identified application was possibly the subject of a PCT patent application filed <u>prior</u> to the filing date of the above-identified application. Erring on the side of caution, Applicant therefore requests that the non-publication request be rescinded.

The instant notification and Request for Rescission was diligently prepared and filed upon Applicant suspecting the possibility that the PCT application may overlap the disclosure of the above-identified application.

Please advise us of the approval of the Rescission, and the anticipated publication date.

Respectfully submitted,
